d. Requested that periodic security investigations of Mr. Gunther be made to assure his continued eligibility for clearance.

11. Presidential Panel on Weapons Test Detection

Mr. Strauss reported that, at Mr. Killian's suggestion, the President had appointed a panel of five persons to study the feasibility of accurately detecting weapons tests. Mr. Killian had suggested the formation of such a panel, Mr. Strauss said, because of the conflicting views now existing on the possibility of detecting weapons tests anywhere in the world. The members of the panel are Harold Brown of Livermore, Roderick W. Spence and Carson Mark of LASL, Hans Bethe, and General Alfred D. Starbird. The Commissioners indicated their concurrence with the selections.

12. Civil Service Diamond Jubilee Award Ceremony

Mr. Strauss said he had received an invitation to the Civil Service Diamond Jubilee Award Ceremony on January 16, and that he planned to attend.

13. Dedication of Brazilian Research Reactor

Mr. Strauss announced that he had received an invitation for himself and four other representatives of AEC to be present for the dedication of a research reactor at Sao Paulo, Brazil, on January 25. The Commissioners discussed the invitation and said they would like to attend, but would be unable to do so because Commission activity at that time would not permit them to be out of the country. Mr. Libby suggested that former Commissioners might be asked to represent the Commission and Mr. Strauss said he would contact Mr. Eugene Zuckert and others to inquire whether they would wish to attend.

14. Army Use of Eniwetok

Mr. Fields said the Army intended to begin testing satellites during the early part of 1958 and had requested permission to use Eniwetok as a launching site. The Commissioners
